

Overdrive Pro Ts808 And Ts9

Both RED AND GREEN Tube Screamer versions of our company have been highly praised by everyone. However, unfortunately, due to some troubles in the name of our product TUBE SCREAMER, our company has decided to change the names of our products to TS GREEN AND TS RED II respectively

Since our company developed and produced the green version of TSGreen V1.0, it has been recognized and highly praised by many artists. The sales volume has reached half a million units.

The TS RED II

On the basis of the V1.0 version, the original device is replaced with a higher quality device, which makes the sound more dynamic. More rich timbre. On the basis of retaining the original function, an internal switch is added to select the timbre mode, so that users can have more timbre experience.

One two-position switch: TS9 overdrive and TS808 overdrive

One internal switches let you choose two mode. .
